

Notice concerning Payment of Joint Research Administrative Expenses

- The performance of research incurs administrative expenses including personnel costs and administrative/accounting costs required in order to set up the research environment.
- Accordingly, TUAT has decided that from 2005 onward, in addition to existing research costs, an additional payment in an amount equivalent to 10-30% of research expenses shall be levied for administrative expenses required to set up the research environment.
- We thank you for understanding our efforts to improve the quality of research at TUAT.
- Note

Recently there have been many cases involving competitive research funding from ~~the government~~ in which an amount equivalent to a set proportion (30%) of research costs is required to be paid to improve the research environment.

Hidefumi Kobatake,
President, Tokyo University of Agriculture and Technology
